**Misguided Sympathy**  
The sooner the people get out of their heads that our prisons should be palaces, the better for the country. Men who break the laws of the country should be punished, else there would be no road in making laws that provide punishment. "Dat's A Orator"

A negro met an acquaintance of his, also colored, on the street one day, and was surprised to see that his friend had on a new suit, new hat, new shoes and other evidences of prosperity.

"Hey boy," he said, "how come you dressed up this way? is you got a job?"

"Ise got somethin' better'n any job," replied the other, "Ise got a profession."

"What is it?"  
"Ise a orator!"  
"What's a orator?"  
"Don't you know?" replied the respondent one in surprise. "Well I'll tell you what a orator is. If you was to walk up to an ordinary nigger and ask how much was two and two, he would say 'four', but if you ask one of us orators how much was two and two, he would say 'When in de course of human events, it becomes necessary to take de numerical de second denomination and add it to de figger two, I says unto you, and I says it without fear of successful contradiction, dat de result will invainibly be four,' dat's a orator!"

## FIVE MEN ARE HELD IN CHOCTAW PROBE OF CONNOR MURDER

Mobile, Ala., Nov. 5.—Henry Green, Sine Beard, Press Rich, Beebe Stokely and Bob Beard were arrested at Butler, Choctaw County, Alabama, Monday for the murder of William Connor, 20 year old ex-service man, on indictments returned by the Choctaw County grand jury, according to a long distance message from County Solicitor B. B. Chamberlain, special prosecutor in the case.

The dead body of Connor, turned to a crisp, was found dangling on wires between two pine trees in the woods near Gilbertown, Ala., on Dec. 15, 1921. Connor had been missing from home for several weeks. Identification was established by a fountain pen, snuff box and the buttons that were on a pair of overalls that he wore before his death.

For two years the state has been trying to solve the mystery and many detectives went to the remotest and smallest county in the state to try and fathom out the crime without result. Four months ago Attorney General Harwell Davis, of Alabama, sent R. E. Hunt, special investigator, special detectives and a force of state law enforcement men into Choctaw County. They worked day and night under difficulties and County Solicitor Bart Chamberlain, of Mobile, a fearless prosecutor, was named to assist them with the result that seven persons were indicted, according to Solicitor Chamberlain, five of whom are now in the Choctaw County jail charged with the crime.

Connor was a member of an alleged gang of "moonshiners" operating near Gilbertown and the state's theory of the killing is that they quarreled over a division of the spoils and when Connor made threats he was killed and his body burned.

The case promises to be one of the most sensational ever tried in the state.

Obeying Orders

Buen Humor, Madrid: A colonel who had been promoted to general gave a banquet to his regiment.

Addressing himself to the soldiers, he said: "Fall upon the food without pity—eat it as if it were the enemy."

At the end of the banquet he observed a sergeant hiding two bottles of wine.

"What are you doing?" asked the colonel.

"Obeying orders, sir. In war when you don't kill the enemy you can capture him."

## SLAYS STRANGER FOR INSULT TO WOMAN

Lafayette, Ga., Nov. 2.—Early Thursday morning James Hixson, who lives in the western country, shot to death a stranger man, and thereupon got in touch with the county authorities and surrendered himself, and is now in the Walker county jail. The man, it is said, came to the home of Hixson about 7 o'clock and made unbecomingly improper remarks to a sister of Hixson and upon the information being given to the brother, he procured a shot gun and killed the stranger.

The body was brought to Lafayette for burial, the county having to take charge of the body. Upon the examination of the body and clothing nothing was found to identify the man.

He was poorly dressed and appeared to have been about 30 years old.

The shot took effect in the face and side of the head and killed him instantly. It is believed by some that he was demented.

## TUSCALOOSA CRIME STILL MYSTERIOUS

Tuscaloosa, Ala., Nov. 1.—Reasonably certain that the body found charred in the ruins of a little negro church four miles from Tuscaloosa yesterday morning was that of a young white woman, officers here exhausted every clue in tracing women visitors to the Tuscaloosa about whom there might have been any mystery. There remains the theory that the woman was a visitor to Tuscaloosa newly arrived and that she was taken to the spot four miles from this city on a road which ends thirty miles back in the country, and murdered either in or near the church, following which the church was burned to hide the crime.

Conner S. T. Hardin and representatives of the sheriff's office have been working steadily in an attempt to unravel the crime.

## MILT TOLBERT SHOW IS HERE THIS WEEK

The Milt Tolbert Tent Show opened its week's engagement here on Monday night, playing to a packed house. One of the largest crowds ever attending the show greeted it on the opening night.

The Tolbert Show has always enjoyed a splendid patronage at Elba. The actors and actresses are personally known to many of our citizens, and the splendid plays presented by the company, have always made their coming a source of pleasure to Elba people generally.

The company has announced a splendid repertoire of plays for the balance of the week, including a special matinee on Saturday afternoon. Large crowds are attending every night, and so far as we have been able to learn all are well pleased with the performances.

## COMMANDER OF ALABAMA VETS IS DEAD

Montgomery, Ala., Nov. 12.—The body of Gen. H. C. Davidson, commander of the Alabama Confederate Veterans, lies Monday at his home in Montgomery. The leader died Sunday in Atlanta at the home of his daughter, Mrs. George F. Lindor. Heart trouble caused his death.

The funeral will take place in Montgomery, probably Tuesday.

Gen. Davidson was born in Montgomery July 31, 1845, making him 78 years old at his death. His ancestors were Scottish.

Upon the outbreak of the war he quit school and became a clerk in the office of the secretary of state of the Confederate States of America. In 1862, he became a member of Company D, Seventh Alabama Cavalry, and served throughout the war as sergeant.

He returned to Montgomery after the war and with the exception of a year spent in New York, was a merchant in the state's capital until 1894. He then quit that business and entered that of insurance and real estate, which he followed as long as he was in active work.

He served for a while as a member of the city council of Montgomery.

He was married in 1872 to Miss Fannie Lee, of Camden, Tenn. They were born to them, Harry L. Davidson, of Montgomery and Mrs. Luiden.

General Davidson has always been active in Confederate Veteran circles, and three years ago was elected commander with the rank of major general.

**M. E. PASTOR ATTENDING CONFERENCE IN OPELIKA THIS WEEK.**

Rev. F. M. Lowrey, pastor of the Elba M. E. Church, left early Tuesday morning for Opelika, where he will attend the annual conference, which will be in session the balance of this week.

Rev. Lowrey carries a splendid report for the year's work, both for the Elba Church and the Mission. Here at Elba all appointments were paid in full and the pastor carries a good report otherwise.

He is expected to return to Elba the first of next week.

## ONE KILLED, 9 HURT IN MINE EXPLOSION

Birmingham, Ala., Nov. 13.—One negro miner was killed outright and eight white miners and one negro miner were injured, seven of them seriously, in an explosion in the mine of the Moffat Coal Company at Moffat Spur, in Bibb County, on the Mobile & Ohio Railroad, near Belle Ellen, at 7:30 o'clock Monday morning.

The seriously injured were brought to Birmingham and sent to South Highlands infirmary.

The mine is located 12 miles west of Blockton and 150 miles in the place. The explosion was only in a pocket of gas and the toll was with the men working in the immediate vicinity of the place. There was considerable excitement in the mine and everyone started rushing to the outside. Rescue forces were organized an the dead man and the injured were taken to the hospital.

The report reached the state mine inspector, C. H. Nesbitt, by nine o'clock, but distance and railroad schedules prevented a quick visit to the place. Investigation into the accident will be made at once.

## OWNER SUFFERS PAINFUL INJURY WHEN AUTO STARTS OFF UNOCCUPIED

Opelika, Ala., Nov. 13.—Mrs. John Alley Jones, well known in this city and section of Alabama, suffered a painful accident today when her car, left on a steep place, commenced to run back and attempted to stop it.

Mrs. Jones had just left the car when it started off, the brakes apparently failing to work. She attempted to stop the car and was thrown under the wheels, sustaining a broken leg. She was given medical attention at a local hospital.

Mrs. Jones is a sister of Professor Walter Green, of Opelika, J. B. Green, of Florida, and Rev. Raleigh Green, of the Alabama Conference.

## PITTMAN IS COUNTY'S NEW GAME WARDEN

Hon. J. E. Pittman, of Enterprise, has been appointed as Game and Fish Warden for Coffee County, and has accepted the appointment. Mr. Pittman is one of the best known men in the County and served as County Demonstrator Agent for a number of years. In a letter to the editor of The Clipper, Mr. Pittman says:

"I have accepted appointment as County Game and Fish Warden of Coffee County. I respectfully ask the cooperation of all true sportsmen that they may create a sentiment for a more strict observance of the law. It is hoped that all hunters will secure license and report to the proper authorities all violations of the law, thereby making better hunting and fishing for all."

Young Isler was the son of Mr. and Mrs. F. M. Isler, who reside near the mill. Besides his parents the young man is survived by several brothers and sisters.

Friends of the family will regret to learn of the accident and extend sympathy to them.

## MUSCLE SHOALS AND GORGAS

Although Gorgas, where the steam plant of the government which was recently sold to the Alabama Power Company is located, is 91 miles from Muscle Shoals, yet there are numbers of people in the United States who think they are both located right together. This misunderstanding of the location of the steam plant has caused some people to criticize the government in selling the steam plant to the Alabama Power Company. Gorgas and Muscle Shoals are two separate and distinct things and are located 91 miles apart.

It also might be interesting to know that in February, 1918, while the World War was in progress, the Alabama Power Company sold to the United States Government the land where the Wilson Dam and nitra plants are now being constructed on the Tennessee River for the sum of \$1. The War Department needed this property to construct a munitions plant, so the Power Company virtually gave the property to the Government.

On September 24, 1923, the Alabama Power Company paid to the government nearly three and a half million dollars for the land where the Wilson Dam and nitra plants are now being constructed on the Tennessee River for the sum of \$1. The War Department needed this property to construct a munitions plant, so the Power Company virtually gave the property to the Government.

The upper story of the building in which the fire originated was occupied by six doctors and a life insurance agent.

Earlier in the evening a barn on the farm of Mr. Morgan who lives beyond the city limits, was destroyed, together with its contents, one mule and a cow.

### RECOMMENDATIONS FOR BOLL WEEVIL CONTROL.

—

In order that you may have the benefit of the combined observation, experience and experiments and demonstrations of Government experts, growers, etc. I give you the recommendations adopted by the National Boll Weevil Menace Convention which was held in New Orleans, La., October 24th to 26th, 1923.

This convention which was called by the Louisiana State Bankers Association was attended by the best Government experts, both Federal and State, growers, manufacturers, bankers, business men, railroads, etc. and after a thorough discussion of the boll weevil problem by Government experts a strong committee of twenty one expert and experienced men was appointed to investigate all methods of weevil control and make recommendations in the light of the latest knowledge on this subject and I give below the principal recommendations of this committee.

"In determining what measure of weevil control should be recommended we strongly advise that dependence should be placed principally upon such measures as have been most widely tested and have established their claim to general use by proven profitable results in a series of seasons, and under a wide diversity of conditions. We would therefore, at this time, make the following recommendations:

"FIRST: Wherever there is evidence of a heavy survival of hibernated weevils and just before squares form, one position treatment may be applied at what may be called the pre-square stage of cotton. Under some conditions a second application may be needed before blooms appear. For this purpose, and at this time, the grower may choose between home mixed calcium arsenate, syrup mixtures, applied with a mop or bottles or undiluted calcium arsenate, applied as a dust, by any simple method. Such treatment evidently reduces the attack from hibernated weevils, and appears to delay appreciably the increase of infestation to a point where additional control treatment becomes needed.

"SECOND: The method commonly known as the Florida Method appears to give an effective control of hibernated weevils and reduces the attack in the early part of the season, so that a profitable increase in yield may result, but this treatment alone leaves the fields subject to re-infestation which cuts short the fruiting period when the general migration of weevils occurs, and to prolong the fruiting period.

"THIRD: The Standard Calcium Arsenate dusting method when properly used has shown in all sections superior efficiency in weevil control, after cotton reaches the stage of growth where it blooms freely. The beginning of regular dusting must be based upon the stage of weevil infestation, and should be when ten percent of the squares show weevil punctures. This method of treatment has shown the possibility of holding down weevil infestation and even checking the attack from migrated weevils for several weeks. The dusting treatment at its best may permit cotton to continue blooming to the limit of its normal growing period. For

this dusting suitable machinery is essential.

"FOURTH: Whatever method of weevil control is applied early in the season, the results thus far indicate clearly that it may also be advisable to extend the possible fruiting season by applying calcium arsenate dust late in the season. The Cotton Growers should study the question of weevil control by climatic conditions so that weevils of materials and of labor through needless applications of poisons may be avoided and weevil infestation should be so closely watched that proper and effective treatment may be given only when really needed, thus preventing the loss of a promising and profitable crop.

"FIFTH: There seems to be complete unanimity of opinion among the scientists and keenly observant farmers, regarding the efficiency of the practical methods of securing stalk destruction vary in different sections, and the agricultural workers in the several States who best solve the question of the best methods of bringing this about.

Organized campaigns should be conducted each Fall for stalk destruction, and for soil building. To promote these important practices we urge that landlords make their arrangements with their tenants by the last of September instead of waiting until December, therefor.

"SIXTH: We call the attention of COTTON CONSUMERS, everywhere, to the fact that prosperity, not only of the Southern States, but of the entire United States depends upon the profitable production of cotton, more than any other agricultural enterprise, and that considering the financial investment involved, the number of people whose welfare and happiness are determined, by the margin profit or loss in the growing of the cotton crop, and in the price of cotton goods and other cotton products, we are far short of having adequate financial support for the extension and research work, that should and must be done along many lines, if the supremacy of the South in the production of the world's most useful fibre plant, is to continue.

Yours truly

E. B. O'Kelley,

Agricultural & Industrial Agent.

## ALABAMA VOTERS TO BALLOT ON THREE OCCASIONS DURING 1924

—

The voters of Alabama will go to the polls three times next year, twice in the spring and once in the fall, says Attorney General, in writing for the Advertiser. The first primary will be the presidential primary, the second Tuesday in March, the second primary will be the general state primary on March 13.

The presidential primary is provided for in the house bill 338, of which Representative Verner, of Tuscaloosa, is the author and which passed the last Legislature. This primary is to be held only in case an Alabama citizen is a candidate for president of the United States. This declaration practically fulfills the requirements of house bill 338 and assures Alabama of a presidential primary next spring.

Under the Alabama law, the Alabama citizen who is a candidate for a presidential nomination and who receives the highest vote in the Alabama primary can name the delegates to the national convention of the party whose nomination he seeks. In other words, if United States Senator Oscar W. Underwood receives the highest vote in the presidential primary in Alabama, he will have the authority to name the delegates to the next national democratic convention from Alabama.

Under the Verner bill recently passed by the legislature, one but an Alabama citizen can get his name on the ticket in the presidential primary. Candidates for the democratic nomination for the presidency who are not citizens of Alabama cannot have their name printed on the ballot.

The state primary will be held on March 13, 1924. State offices to be contested for in the primary are two associate justices of the Alabama supreme court and one member of the Alabama appellate court. The places of associate supreme court justices Sayre and Bouldin will be at stake in the next primary. On the appellate court the place of Judge Foster will be at stake.

In addition to the court places, candidates for president of the Alabama public service commission and commissioner of conservation will plead with the people for votes.

All congressmen of Alabama are to be nominated at the primaries as is the junior senator, from Alabama, the place now held by United States Senator J. Thomas Heflin.

### BASKET BALL TOURNAMENT TO BE HELD AT MONTEVALLO

Alabama College at Montevallo has sent an invitation to the various high schools of the state for their basketball teams to enter a contest in the Basket-Ball Tournament which will be held on the college campus the latter part of February or first of March as was done last year. At the same time, an invitation is extended to all those who may be interested to enter a contest in Art, Home Economics, Expression, Handicrafts, etc. Later in the year, about May 1, a music contest for the high school music clubs will be held. Free entertainment is offered to the representatives of high schools who may attend all of these contests. There will be a good time for all.

## NEGRO HAS THREE BULLETS IN BRAIN

—

Tampa, Fla., Nov. 8.—"I see felt no discomforts yet," Chester Taylor, 26 year old negro, with three bullets imbedded in his brain since last August, told International News Service today when he hopped a truck which he drives for a local wholesale firm.

"And I see going strong," he added as the truck whirled away leaving a dense cloud of smoke.

In a playful scuffle with another negro, Chester was shot four times on August 5 last. One bullet lodged in his leg and the other three went directly through the skull into his brain.

The searching light of the X-ray machine has revealed that the bullets are there, and why Chester did not immediately succumb and drop off into eternal sleep is a puzzle to local physicians.

After a confinement of ten days in a hospital, Chester got up, walked two miles to a doctor's office and had the bullet extracted from his leg and his head X-rayed. A few days later he resumed work as a truck driver and apparently is none the worse for the three 22 calibre bullets lodged in his brain.

The incident has caused quite a bit of discussion among local physicians. They say that by all the laws of medical science the three bullets should have caused instant death.

Yet Chester says his appetite is fine and he is still going strong.

## BIRMINGHAM GETS K. K. K. HOSPITAL

—

Birmingham, Ala., Nov. 10.—Erection of a hospital here costing \$250,000 by members of Robert E. Lee Klan No. 1 Knights of the Ku Klux Klan, was recorded as assured Saturday when the transfer of the old W. S. Brown, home on the northside to the organization were recorded at the court house.

Use of the site for either a klavern for the Robert E. Lee Klan, or a hospital for proteates, is said to be the purpose of this purchase.

It was asserted that should the location be used for a klavern, then the hospital would be erected by the Imperial Palace, of headquarters of the Ku Klux Klan.

The property fronts 100 feet on Sixth avenue with a depth of 190 feet, and the consideration is given as \$45,500.

The project is declared to be financed exclusively by the Robert E. Lee Klan, with a rumored membership of 6,000 men.

The Klan, as the purchaser, is classed as a corporation in the papers filed at the court house and Thomas Shirley is mentioned as president.

It was reported that an initiation of 2,000 candidates at East Lake November 20 will place the total klansmen in Birmingham at 10,000.

The proposed hospital is to be of the most modern construction and with complete equipment, it was announced.

Long known as the "Magdalen Home" will be used for unfortunate women, it was said.

## "PORK CURING" IS TOPIC OF BULLETIN

—

Auburn, Ala., Nov. 13.—"Curing Pork On The Farm" is the title of a very timely bulletin which was written by K. G. Baker and is being distributed by the County Agents—men and women.

The dry salt method and the brine-cure method are briefly explained with the advantages and disadvantages of each method pointed out. It also contains instructions for smoking and sacking meat.

One division is devoted to a discussion of meat by-products, including lard and how to render it, sausage and how to make and store it, preservation of ribs and backbones, pickling the feet, and making head cheese and scrapple.

On weather conditions for killing hogs Mr. Baker states that "Freezing weather is not essential but steady cold weather at the time of killing and for several days after killing is necessary to thoroughly cool the meat and start the curing process."

Those who desire these bulletins and are not in reach of a county agent, can secure them by writing the Extension Service at Auburn.

## \$1,000 ARE BURNED IN FIRE AT LANETT

—

Lanett, Ala., Nov. 10.—Fire of unknown origin destroyed two frame residences here at about 11 o'clock today, the blaze starting in the home of Alfred Cook. This was a two-story house recently built. The fire spread to the house of S. R. Solomon.

Both structures were practically destroyed before the West Point fire department reached the scene.

Seven bales of cotton lying in the yard of the Cook home were destroyed, also about one thousand dollars in currency belonging to Mrs. Cook.

The house was partially covered by insurance, but the cotton and currency were a total loss. So far as known, the Solomon cottage was not insured.

The total damage on both houses, furnishings, cotton, currency, is estimated at about \$8,000.

## TEACHING PATRIOTISM

—

Part of the business of the Youth's Companion is expected to be a fine patriotism—the love of country; not wrong but right. The Youth's Companion started the movement for teaching the flag in the schoolhouse, it formulated the Pledge of Allegiance to the Flag that is repeated today in practically every schoolhouse in the United States. It has for a long time, now, been running a series of patriotic covers picturing striking events in the nation's history. Paid for by the best historical illustrators in the country, they are reproduced in full color at frequent intervals on The Companion's cover. It is worth a year's subscription to the Companion to have these scenes in our building of the nation pictured so graphically. They help greatly in fixing the memory of the events related in the school histories.

The 52 issues of 1924 will be crowded with serial stories, short stories, editorials, poetry facts and fun. Subscribe now and receive:

## RAPID GROWTH HAS COME TO BAPTISTS

75 MILLION CAMPAIGN HAS LENT STRENGTH TO EVERY DEPARTMENT OF WORK

### RESULTS IN SOUTH NOTED

Home and State Missions, Schools, Orphanages, Hospitals and Relief Report Marked Advances Under Forward Movement.

DR. B. D. GRAY,  
ern Baptist Convention  
Secretary Home Mission Board South.

Suggesting the growth which the Baptist 75 Million Campaign has brought to the general work of Southern Baptists, it is reported by the general headquarters of the movement that during the four years that have intervened since the Campaign was inaugurated in 1919, the denomination has gained 57 district associations, 331 active ministers, 3,068 local churches, 3,287 Sunday schools with 65,222 pupils, 8,898 Young People's Unions with 235,917 members, and 7,054 Women's Missionary Union organizations, and baptized 762,880 persons. At the same time the churches have given \$28,776,937 more to missions, Christian education and benevolence than they did during the four years preceding the period prior to the Campaign, and have increased their investment in local church property by \$45,165,113.

The larger resources made possible for missions and benevolences through the Campaign have been responsible for great advances in every form of denominational work, both at home and abroad.

Complete Church Building Fund Among the outstanding achievements of the Home Mission Board, operating throughout the territory of the Southern Baptist Convention, are noted the completion of its million dollar church building loan fund, the baptism of 17,742 young people in the dedication of their lives to some definite form of Christian service, building or improvement of 1,872 church houses and churches, and the baptism of 762,880 persons, 235 Baptist churches and 2,388 new Sunday schools.

Precisely twice the state mission results have been accomplished in many of the states since the Campaign began as were had for any corresponding period of time prior to that movement.

Southern Baptists own 118 Baptist schools, colleges, and universities, where nearly 40,000 young people are studying to fit themselves for larger usefulness. The number of students has been greatly increased through the Campaign making possible the larger equipment of the schools, and the investment which that movement has made possible in the schools is equal to about 45 per cent of their total value at the time the Campaign was inaugurated.

4,000 Orphans Cared For Nearly 4,000 orphan boys and girls are cared for in the 19 Baptist orphanages of the South. Two new orphanages have been provided by the Campaign and practically all of the older ones have been given better equipment by this movement. The equipment is not large enough yet, as 2,000 boys and girls had to be turned away last year because the institutions had no more room.

When the campaign was launched, Southern Baptists had only 12 hospitals. Today that number has been increased to 21. Last year over 47,000 patients were treated in these hospitals, a large number of these being charity patients who could not have had an opportunity to get well except through some such assistance.

The Relief and Amity Board, serving aged ministers, now adding more than 225 beneficiaries and has expended in direct relief since the Campaign began the sum of \$414,924.66.

It will require \$31,000,000 additional cash to complete the Campaign by the end of the year in 1924, and every effort is being made to enlist all Southern Baptists in having a share in this task.

## EXAMINERS CHECKING UP 1923 TAX ASK COOPERATION OF PEOPLE.

Messrs. J. H. Chapman and J. H. Hanks, assistant examiners of accounts, arrived at Elba several days ago to begin the work of checking up the 1923 tax matters. These gentlemen have mailed to the people of the county a letter asking their full co-operation in this matter, urging them to bring in their receipts, etc., for their inspection. The following letter was issued last week:

Under direction of Hon. Chas. E. McCall, Chief Examiner of Accounts, the undersigned are engaged in auditing the accounts and vouchers of the Tax Collector of Coffee County for the year of 1923, and in order to make a proper accounting of the money collected, we find it necessary to determine the exact amount of collections prior to February 19, 1921, from the taxpayers' receipts.

This letter is for the purpose of earnestly soliciting your co-operation in this important matter, and if you will immediately produce your tax receipt, if paid from October 1, 1920, to February 18, inclusive, at the Court House, at Elba, Alabama, it will be highly appreciated and will greatly facilitate our work. If you find it inconvenient to bring your receipt in person or send same by your neighbor, please mail it to the undersigned and we will return it by mail, postage prepaid, on date of receipt.

This investigation is being made to determine the exact amount of taxes paid to the Collector in order that it may be known whether or not he has made proper settlement with the State and County and to permit us to make a proper distribution of the Special District School taxes paid by the taxpayers of this county for the year named. We assure you we are not

in no way interested in the tax matters of your county other than to require a strict accounting of the money paid to the Collector and see that each school district receives the Special District taxes to which it is entitled.

We fully appreciate the fact that the taxpayers of Coffee County have been greatly inconvenienced on account of the misplacing tax records for the year 1920, but with your co-operation we can adjust the records in a manner as will definitely close same, and render further trouble unnecessary. After due consideration we trust you will kindly consent to comply with this request by producing your receipt at once.

Respectfully,  
J. H. Chapman,  
J. A. Hanks,  
Assistant Examiners of Accounts.

## THANKSGIVING PROCLAMATION ISSUED BY JUDGE J. A. CARNLEY

In the Providence of God, we have had another year of abundant blessings. Our harvest of cotton, corn and peanuts; of vegetables, potatoes, and syrup, in quantity or price, are sufficient to supply our needs, and we have to spare. We acknowledge with grateful hearts the products of our forests and farms.

We count ourselves happy for homes so blessed by natural, moral and spiritual environments. Coffee County is endowed with richest blessings in its climate and variety of soil. Here we may sow, grow and gather most anything needed by man.

We have churches and schools to bless our people spiritually and morally. Along by our homes on hill-sides and plain we have these institutions of God and man to glorify and to develop the best and highest in us.

Originating in hearts filled with gratitude to God, our Pilgrim Fathers furnished the example of a day set apart to render thanks to Almighty God for His protecting and bountiful Hand throughout the year of harvesting plenty. This beautiful custom has been adopted as a Nation's Day of Thanksgiving, and sanctified by proclamations of Presidents, Governors and Mayors, from Washington to Coolidge and from Bibb to Brandson. May we continue as a grateful people to write into our history as a nation, state, county or municipality gratitude to an All-Wise and Beneficent Father.

We would not forget that during the year many hearts and homes in our midst have been touched by the hand of sorrow. Death and distress must come to us all, but our hearts and lives have been blessed by a sympathizing Lord even through these experiences, and our lives are the better prepared for entering in through the gates of an eternity of bliss to which they have been called during the year.

"God's hand has planted another year. In the fruitful soil of time—To the tragic poem of human life. Is added another rhyme." Thursday, November 29th, is set apart as our National and State Thanksgiving, and our people are called upon to meet in their churches or other places of worship and give thanks unto Him who has vouchsafed unto all countless blessings during another year, material and spiritual. Let us not forget for gain or gain to acquit ourselves as God-loving and God-fearing people in every town, and community in Coffee County, and I therefore, as Probate Judge and fellow citizen of our abundantly favored County of Coffee, State of Alabama, do hereby memorialize this Day of Giving Thanks and urge all of our citizens, white and colored, to observe the Day by pausing in their usual avocations of business and turning aside to their places of worship and render thanks to the Lord for His manifold blessings during the year.

This November 20th, 1923.

## YOUNG BOY HELD FOR SHOOTING HIS FATHER

Ozark Star says: A young boy, about fourteen years of age was placed in the Dale County Jail Monday night, charged with shooting his father, Tom Pate, the weapon used being a double barrel shot gun. We understand that Pate the father, is in a very serious condition and very little hopes are entertained for his recovery. The shooting occurred in the Midway community, a few miles below Daleville, where Pate and his family were living. We understand that the father was sitting by the fire and the young son secured the gun and without a word of warning emptied the contents of the gun in his father's body. The Star is unable to learn any of the particulars, but no matter what they are, it is an awful charge against the young man. He was given a preliminary hearing at some future date, to be agreed upon by the officers and pending the outcome of Pate's recovery.

Samson, Ala., Nov. 17.—Johnnie Halstead of Samson, was shot and killed while hunting near here this morning.

Phonose Wise, a boy about fifteen years of age, threw his gun down after shooting a bird and it exploded as it hit the ground, the charge striking Halstead in the leg and lower part of the body.

Young Halstead was given first aid here and it was the intention to remove him to a hospital in the morning.

He was fifteen years old and a member of a well known Samson family.

## WITH THE CHURCHES OF ELBA ANNOUNCEMENTS AND NEWS OF INTEREST FROM OUR RELIGIOUS INSTITUTIONS

### BAPTIST CHURCH.

Preaching 11.00 a. m. and 7.15 p. m. by Chas. H. Gorman, Pastor.

Sunday School 9.45 a. m. by C. Fleming, Superintendent.

There was an increase in attendance at Sunday School last Sunday, over the previous Sunday. There is yet room for improvement.

The pastor's sermon on "Scriptural Sanctification" was listened to with much interest at the morning service. Brother W. Jones, a blind minister, preached for us at the evening hour, from the text, "The precious blood of Jesus." His message was greatly enjoyed by all who heard him.

A special effort is being made this week to build up the attendance at Sunday School, and we expect to have several hundred per cent classes next Sunday.

Brook's class was a hundred per cent class last Sunday as usual.

The pastor will preach as usual next Sunday at both the morning and evening services and his subjects for discussion will be timely and to the point.

All are cordially invited to attend all the services of the church. Strangers and visitors will always find a cordial welcome.

### METHODIST CHURCH

Preaching every Sunday, at 11.00 A. M. and 7.30 P. M. by Rev. Lowrey.

Sunday School at 9.45 a. m. Chas. L. Rowe, Supt.

Epworth League, Sunday evening at 6.30 o'clock.

Prayer Service, Wednesday evening at 7.00 o'clock.

They were at the conference from Dan to Beersheba—some with a look of concern on their faces while others had triumph written in their eyes. It was with some degree of pride that the pastor from Elba reported, "13 additions to the church, better spiritual condition, and all finances in full."

A report like this is necessary brief, but every preacher knows how to read between the lines, and supply the omissions. The Church consist of sweat and blood on the part of faithful and loyal laymen and untiring service of members.

Opeika is one of those ideal cities of Alabama where civility and courtesy have always been a mark of distinction, and where every guest leaves knowing he has had the very best place in the city. The Mayberry's and Smiths and Wingtons are from that community, and if you would like to know why they are proud of it, just make a visit to Opeika.

The demand for opening new territory was so urgent that all available missionary funds were appropriated to those new places, and so left us with none for our mission churches, and the pastor is asked to fill these in the afternoon, which will be on the same day as formerly except they will be at 3 o'clock instead of the morning hour.

Our Board of Stewards has made it the privilege of every member of the church this year to pay every week in an envelope which will be furnished every member of the church. And this will include everything you are to pay to the church this year. Every child and adult will be given an envelope with his number on it, and when he turns in his envelope on Sunday he will be given credit on the book for the amount. This system is used by all churches of all denominations that are at the head. We want to congratulate our in adopting this system.

## BOY COMMITS SUICIDE ON EVE OF WEDDING

Evergreen, Ala., Nov. 14.—On the eve of his marriage to a daughter of a prominent Evergreen family, Paul C. Ohrt, 24, lumberman, was found dead in an office of the R. J. McCreary Lumber Company this morning with a bullet hole through his head. A note to his fiancée, found at his side said he believed that it would be "to her happiness that he would be done." The coroner's verdict was suicide.

The body was found by the negro janitor when he opened the office this morning. The body was carried to the home of Mr. and Mrs. R. J. McCreary, where the funeral services will be held. His brother, John Ohrt of Hempstead, N. J., was notified.

When last seen by any of his friends, Mr. Ohrt was in good spirits and no reason is attributed for the suicide. All arrangements for his wedding, which was to have occurred Thursday afternoon were completed.

## TO ROAD OVERSEERS AND APPORTIONERS:

Under a regulation of the Court of County Commissioners reports are to be made and filed with the Judge of Probate by December 15th, 1923, and blanks for these reports have been printed and can be obtained at the Elba office.

Many of these blanks were given out at a meeting at Elba on Saturday, Nov. 17th, and blanks will be on hand for distribution at Enterprise, Nov. 26th, when the Court of County Commissioners will be in session and when a meeting of all Road Officials will be held at Enterprise.

It is expected that every overseer will render full ten days service on his road, and every person liable to road duty will be caused to work full ten days of ten hours a day. When this shall have been done, the overseers will make reports to the Court, to be filed with the Judge of Probate, and these reports will be open to inspection by the grand juries.

Any defaulting overseer will be reported by the apporportioners, and overseers will report any defaulting road hand and prosecutions for failure to work the public roads.

The Court of County Commissioners are desirous of working every public road in the County and of maintaining the same, and they are anxious to co-operate with road officers and road hands to this end. They have purchased and furnished road tools in reasonable supplies already, and from time to time hope to furnish more. There are many overseers who have these tools, and if they have finished their full ten days work, they should return at once these tools to the Probate Office and take up their receipts for the same. After the end of the terms of office of overseers and apporportioners they will be given certificates of exemption for half time, provided they have served their full time.

The tools will be available for the next overseers, and should any overseer fail to return the same, he will be held to account for the value of the property.

J. A. Carnley,  
Judge of Probate.
